

Test Case 9 – Reporting: Acknowledged vs Unacknowledged Breaches

Objective

To track SLA accountability by comparing acknowledged and unacknowledged SLA-risk incidents.

Steps

1. Navigate to **Platform Analytics → Reports**.
2. Open the **Acknowledged vs Unacknowledged Breaches** report.
3. Review the report data.

Expected Result

- A **Pie Chart** is displayed.
- Incidents are grouped by **SLA Acknowledgement** (True/False).
- The report accurately shows acknowledged and unacknowledged SLA breaches.

Actual Result

The report displayed a pie chart showing the distribution of acknowledged and unacknowledged SLA-risk incidents correctly.
