

Test Case 10 – Reporting: Pending Justifications

Objective

To identify incidents where the SLA is at risk but the required SLA Breach Justification has not been provided.

Steps

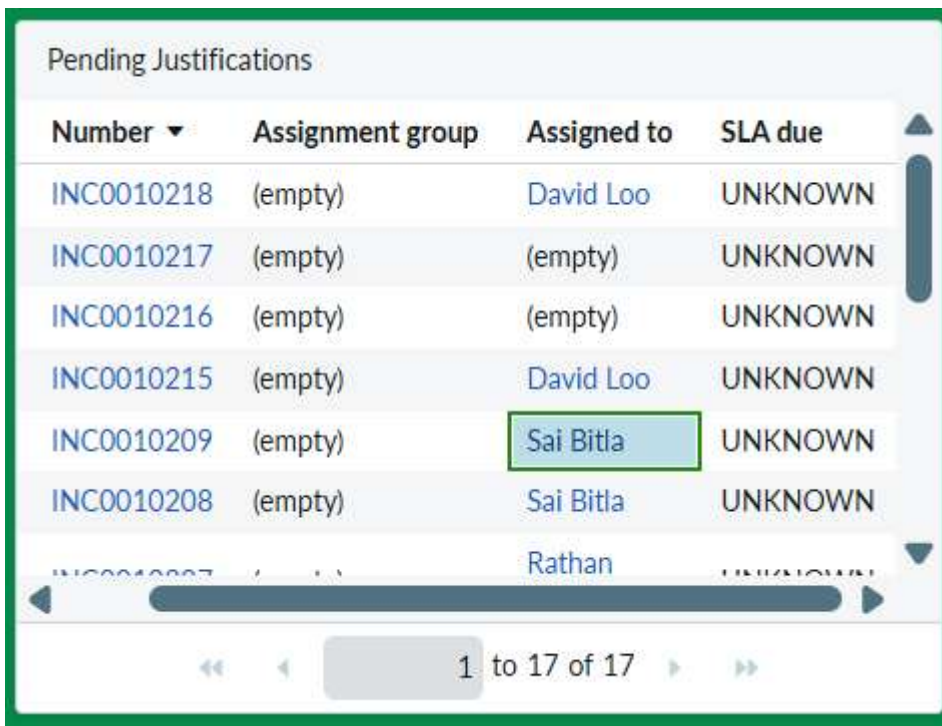

1. Navigate to **Platform Analytics → Reports**.
2. Open the **Pending Justifications** report.
3. Review the list of incidents.

Expected Result

- A **List Report** is displayed.
- Only incidents with **SLA At Risk = True** are shown.
- Incidents with an empty **SLA Breach Justification** field are listed.

Actual Result

The report successfully displayed all incidents where **SLA At Risk = True** and the **SLA Breach Justification** field was empty.

Number ▾	Assignment group	Assigned to	SLA due
