

Test Case 8 – Report Validation: SLA Breaches by Reason

Objective

To verify that the **SLA Breaches by Reason** report correctly visualizes the distribution of SLA-risk incidents.

Steps

1. Navigate to **Platform Analytics → Reports**.
2. Open the **SLA Breaches by Reason** report.
3. Verify the report visualization and grouped data.

Expected Result

- A **Pie Chart** is displayed.
- Incidents with **SLA At Risk = True** are grouped by **SLA Breach Reason**.
- The chart accurately shows the distribution of SLA breach reasons.

Actual Result

The report displayed a pie chart grouped by **SLA Breach Reason**, correctly representing all SLA-risk incidents.
