

Test Case 7 – Virtual Agent Acknowledgement Validation

Objective

To verify that the Virtual Agent captures the user's SLA acknowledgement.

Steps

1. Open the **Virtual Agent**.
2. Select the **"SLA Breach Awareness & Justification"** topic.
3. Click **"Yes"** to acknowledge the SLA risk.

Expected Result

- A confirmation message is displayed.
- The user acknowledgement is successfully captured.

Actual Result

The Virtual Agent displayed a confirmation message after the user selected **"Yes"**, confirming that the SLA risk acknowledgement was successfully captured.
