

Test Case 2 – SLA Attachment and Execution

Objective

To verify that the SLA is automatically attached to the Incident and starts running.

Steps

1. Open the created Incident.
2. Navigate to **Related Lists** → **Task SLA**.
3. Verify the attached SLA record.

Expected Result

- SLA record is visible.
- SLA Due date/time is populated.
- SLA percentage starts increasing based on business hours.

Actual Result

The SLA was successfully attached to the Incident. The SLA Due field was populated, and the SLA progress started increasing as expected.

Test Status

Passed
